

Public Health England's infection prevention control guidelines will remain in place for all staff and patients.

While wider Covid restrictions will end in many settings in England from Monday 19th July, guidance will stay in place across all health services including dental practices, hospitals, GP practices, optometrists and pharmacies to ensure patients and staff are protected.

Staff, patients and visitors will also be expected to continue to follow social distancing rules when visiting any care setting as well as using face coverings or a mask so that the most vulnerable people can continue to safely attend hospital, their GP surgery, dental surgery, pharmacy or any other healthcare settings for advice, care and treatment.

Please consider our staff and other patients

Thank you
